Professional Summary

Associate Engineer with experience in IT operations, incident management, and handling international clients (Australia & New Zealand). Skilled in ServiceNow, SAP, and automation using AI/ML. Strong in system monitoring, problem-solving, and delivering efficient technical solutions in production environments.

Experience

Associate Engineer

Client: Holcim Australia & New Zealand

Rigved Technologies

Mar 2026 – Present

- Managed IT operations and incidents from project onboarding stage.
- Monitored and resolved service requests using ServiceNow ensuring SLA compliance.
- Performed incident response, escalation, and resolution for critical issues.
- Worked on SAP NetWeaver for backend operations and purchase order processing.
- Handled client communication using Ozonetel.
- Conducted root cause analysis (RCA) to reduce recurring issues.
- Maintained system availability and minimized downtime.

Internal Projects

- **AI Voice Bot:** Built a voice bot to automate client call handling using speech recognition, improving response efficiency.
- **Resume Matcher (NLP):** Developed a system to parse, score, and rank resumes using NLP techniques, improving screening efficiency.

Machine Learning Intern

Jul 2024 – Sep 2024

HCL Tech (Remote)

- Performed EDA, preprocessing, and feature engineering on datasets.
- Built machine learning models for predictive analysis.

Projects

Email Spam Detection

- Developed an NLP-based classification model to detect spam emails.
- Applied text preprocessing and machine learning algorithms for accurate filtering.

Twitter Sentiment Analysis

- Built a sentiment analysis system to classify user opinions (positive, negative, neutral).
- Used NLP techniques and visualization tools for data insights.

Cement Strength Prediction

- Developed a regression model to predict cement strength based on composition.
- Applied machine learning techniques for performance optimization.

Technical Skills

- **Languages:** Python, C/C++
- **Tools:** ServiceNow, SAP NetWeaver, Ozonetel, GitHub, VS Code
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn
- **Frameworks:** Django
- **Databases:** MySQL
- **Concepts:** Data Structures, OS, DBMS, OOP, Basic Networking

Education

Bachelor of Technology (Computer Science)

2021 – 2025

ITS Engineering College, Greater Noida

Grade: First Class

Class 12 (Science)

2019 – 2021

D.K.V.C Jr College

Class 10

2019

Bharat English High School

Certificates

- Machine Learning Development – iNeuron
- Data Science Libraries – iNeuron
- C Programming – Incapp
